Bontanical Drink Mix

# QualiTen

Improve Your Quality of Life

# The Causes of Aging

## Cardiac Disease

Cardiovascular disease is the leading cause of death around the world. Unhealthy lifestyles including excessive smoking, alcoholism, irregular diet, and lack of exercise can lead to damaged blood vessels, vascular occlusion and induce cardiac disease. These all can do great harm to your health.

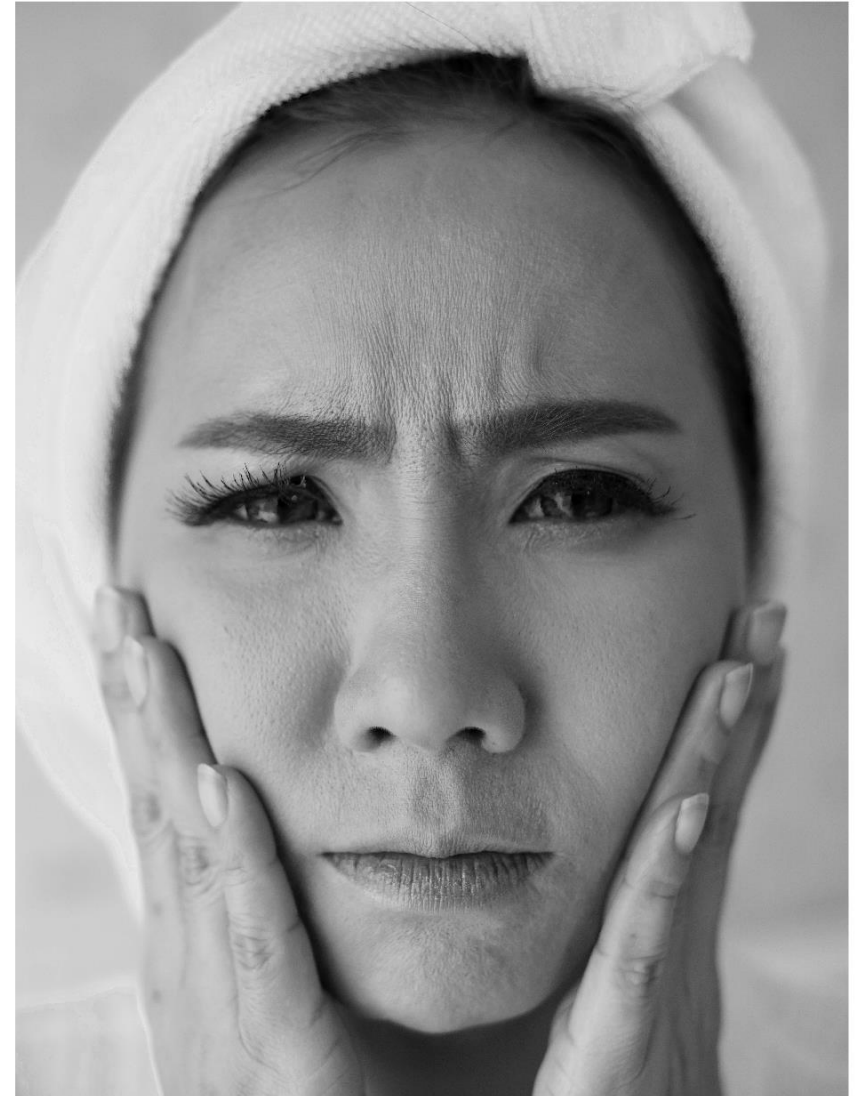

# The Causes of Aging

## Free Radicals

With oxidation, the skin will produce a type of harmful chemicals — free radicals. It will cause damages to the intracellular deoxyribonucleic acid and accelerate the aging process.

## Loss of Collagen

The loss of collagen will lead to dehydrated skin. Consequently, it causes the appearance of wrinkles and loss of resilience in the skin.

# The Causes of Aging

## UV Radiation

Long-time sun exposure can cause several issues including coarse and wrinkled skin, thickened stratum corneum and accelerated aging process.

## Metabolic Disorders

It is normal that our metabolism slows down with age. However, metabolic disorder is something different. It exerts negative influences on cellular metabolism and leads to cellular senescence, which results in accelerated aging process.

It's time to awaken **your inner beauty**  
with the **revolutionary** dietary supplement

# QualiTen

The Research & Development Centre at YiJia is furnished with a world-class team specializing in engineering, technology, and innovation in the beauty industry. **Our international manufactories are in full compliance with the FDA rules and regulations.** In addition, our products have been well received and the market has been expanded continuously. Therefore, the excellent quality of QualiTen is guaranteed.

Developed with YiJia's **revolutionary technology**, powered by near 20 types of natural fruits and polished by five years of hard work and dedication, QualiTen is **the latest vegetarian functional drink** of the MIRIKEL product line. The botanical beverage contains mixed fruits and vegetables that **are rich in antioxidants**. As they are in the form of natural plant extracts, **it is safer and more efficient to use.**

**Research and  
Development Centre**

# QualiTen

the botanical drink mix is produced with YiJia's revolutionary technology. The product is of macromolecules, which are easy to be broken down and absorbed into the body. **QualiTen is infused with rose extract, grape extract, Coenzyme Q10 as well as natural plant extracts.** It can improve blood circulation and support cells' self-repair and activation, keeping you full of energy. In addition, it can boost the immune system and cardiac dynamics. Providing you with sufficient nutrition, QualiTen can also stimulate collagen production and offer the resistance to oxidation and inflammation.

## Key Ingredients & Benefits

Rose extract can offer the resistance to inflammation and repair the damages caused to the skin. This natural plant extract is richly infused with Vitamin C, which can stimulate collagen production. Combined with ketone compounds, **it can keep your skin clean and radiant.**

**Rose exact is also rich in antioxidant compounds known as polyphenols.** In 2005, the "American Journal of Clinical Nutrition" explored the role of polyphenols in helping prevent several different diseases, including cancer. Polyphenols are already recognized for their general health benefits.

Grape extract can increase skin's UV resistance, deal with issues caused by aging and sun exposure as well as enhance cell viability, awakening the radiance of your skin. Grape extract contains **resveratrol, a powerful antioxidant.**

Researchers from Linus Pauling Institute at Oregon State University found out that the resveratrol in grapes can naturally boost the innate immune system in humans.

CoQ10 (Coenzyme Q10) is known for providing heart protection. It not only can **boost cardiac dynamics** but also serve as **a powerful antioxidant**. In addition, it can prevent free radicals induced damages and cleanse blood vessels, keeping you full of energy.

Your heart muscle may become stronger with CoQ10 supplementation, according to a review of previously published research that appeared in the December 2012 issue of the "American Journal of Clinical Nutrition".

MIRIKEL QualiTen is infused with multiple natural fruits including blueberries, strawberries, pomegranates, raspberries, passion fruits, red beets, oranges, pineapples, and lemons. Combined, they help to **prevent cells from free radicals induced damages**. In addition, they can also improve your vision, help to reduce abdominal fat, relieve constipation, keep skin healthy, protect the neurological and cardiovascular system, brighten your skin and provide resistance to oxidation.

Walter Willett reports in his book "Eat, Drink and Be Healthy: The Harvard Medical School Guide to Eating Healthy" that individuals who eat at least five servings of fruits are 15 percent less likely to have a heart attack.

# New Packaging Design

Clean design and travel friendly

# Directions For Use

Mix 1 packet (10g) of QualiTen with 150ml water and stir.  
Consume 1 to 2 packets per day.
